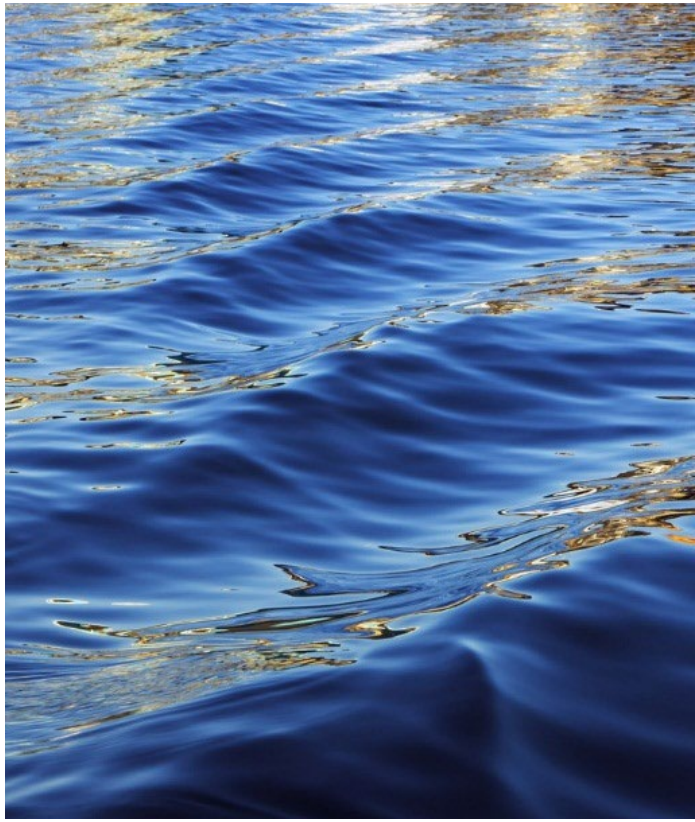
Behavioral Health Deflection Program Data Tracking

HB 4002: Implementation & Training Symposium | May 9, 2024

OHSU | Portland State University | SCHOOL OF PUBLIC HEALTH



Core Team, OHSU-PSU School of Public Health

Elizabeth Needham Waddell, PhD

Sara Rainer, MPH

- Erika Simeon, MPH
- Eliza Haddeland, MS
- Ruth Rowland, MA
- Sara McCrimmon, MPH
- Alicia Feryn, MS

Enrolled

House Bill 4002

SECTION 37. (1) The Oregon Criminal Justice Commission shall establish a statewide system for tracking simple, clear and meaningful data concerning deflection program outcomes, including connections to social services and criminal justice system avoidance, and other data deemed relevant that is timely and easily accessed to inform best practices and improve outcomes for individual program participants.

(2)(a) No later than 12 months after the effective date of this 2024 Act, the commission shall conduct a study to determine best practices for deflection programs and make recommendations for funding of the Oregon Behavioral Health Deflection Program described in section 76 of this 2024 Act. In making the recommendations described in this paragraph, the commission shall consider the best available information and projections regarding deflection programs in this state.

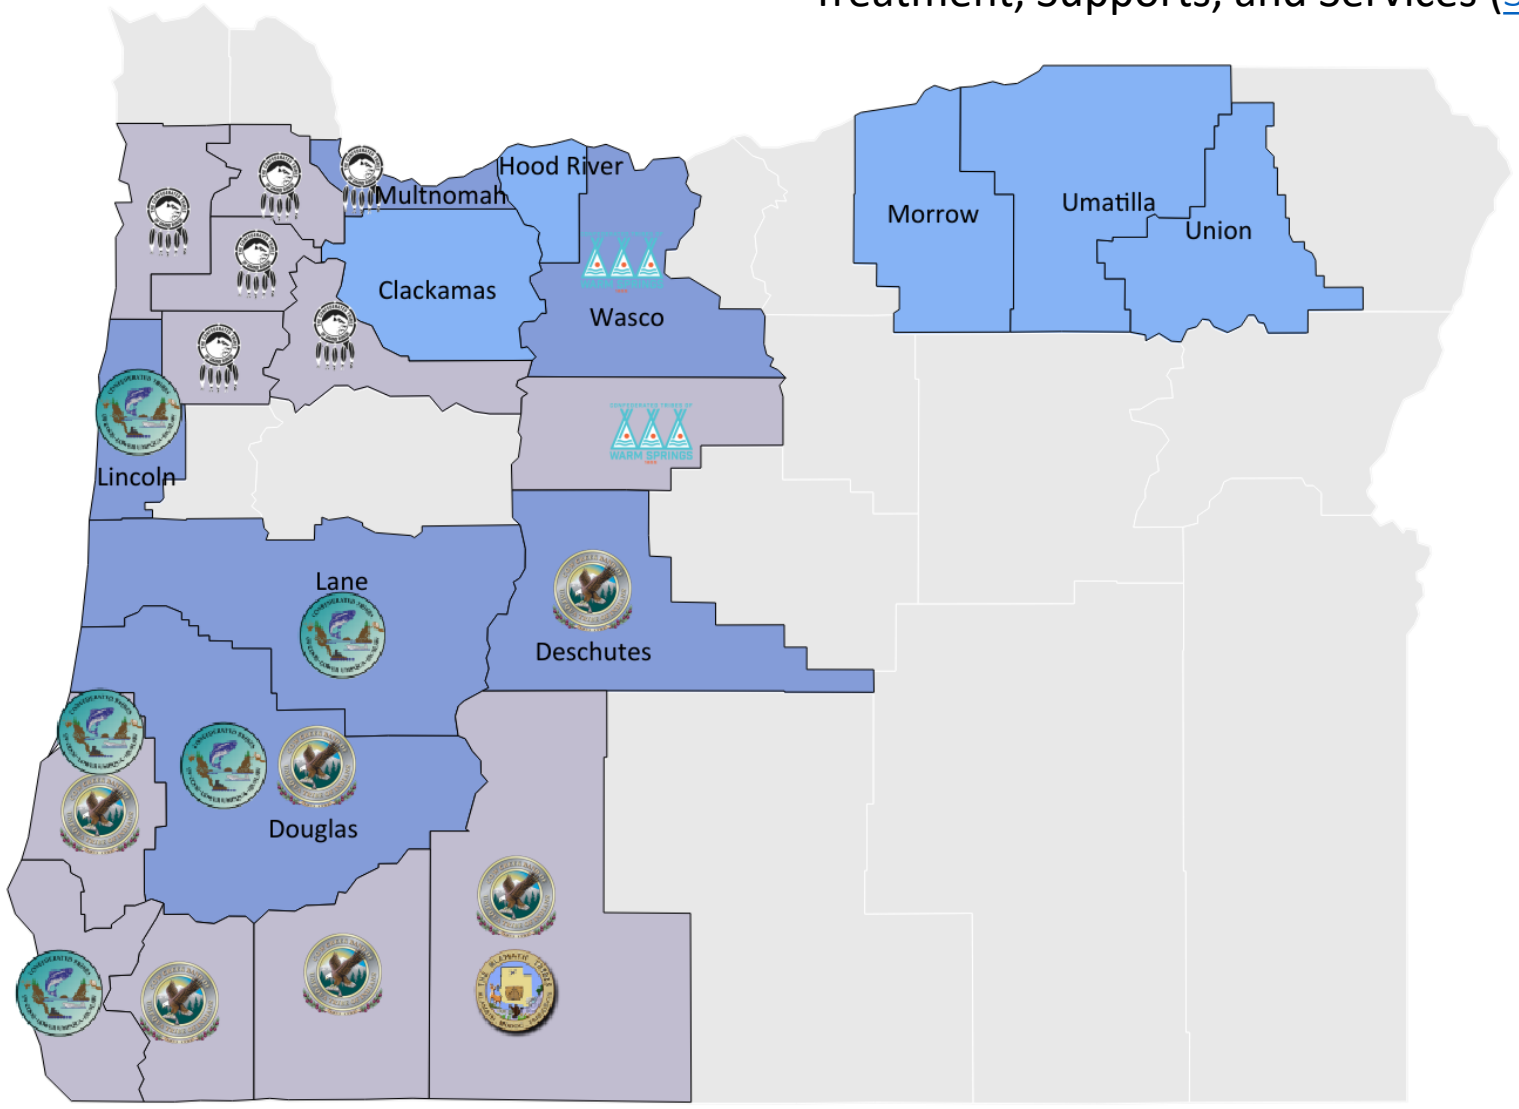
IMPACTS

"IMPACTS" stands for Improving People's Access to Community-based Treatment, Supports, and Services (Senate Bill 973 (2019))



Tribes Providing IMPACTS Services:

- Confederated Tribes of Coos, Lower Umpqua and Siuslaw Indians
- Confederated Tribes of Grand Ronde
- Confederated Tribes of Warm Springs
- Cow Creek Band of Umpqua Tribe of Indians
- Klamath Tribes

IMPACTS database development

- Worked with IMPACTS grantees to identify program outcomes
- Developed a web-based database for sites to track client-level data
- Continue to improve the database based on grantee feedback
- Provide ongoing support to ensure accurate data collection that reflects the accomplishments of each site

OHSU Portland State University SCHOOL OF PUBLIC HEALTH

IMPACTS database structure

- Who is entering data
- Pathways into IMPACTS services
- Demographic information
- Mental health and substance use disorders
- Encounters with criminal justice and health systems
- Living arrangements and employment status
- Services needed, provided, and needs resolved

IMPACTS database example

Baseline IMPACTS Client Information Form

Date of client's first contact with IMPACTS or your best estimate. (For example, when was the first peer outreach attempt or direct referral from law enforcement?)

* must provide value

M-D-Y

How did you identify/connect with the client? (check all that apply)

- [ ] Behavioral health program referral
- [ ] Community corrections
- [ ] Community outreach
- [ ] Court
- [ ] Emergency department
- [ ] Hospital
- [ ] Jail
- [ ] Law enforcement drop-off or referral
- [ ] Prison
- [ ] Walk-in
- [ ] Word of mouth or family referral
- [ ] Other (please specify)
- [ ] Don't know

IMPACTS database example

Our plan and approach: **BHD data tracking**

- Meet with Behavioral Health Deflection (BHD) early adopters to learn about program structure and goals, staffing, data availability
- Build and pilot the BHD database with sites
- Roll-out the live database, providing ongoing support to all sites

OHSU Portland State University SCHOOL OF PUBLIC HEALTH

First step: BHD data tracking

- Funded sites will be hearing from us soon to schedule meetings to learn about your program goals and data sources
- Look forward to working with you all!

OHSU Portland State University SCHOOL OF PUBLIC HEALTH

Early considerations: **BHD data tracking**

- Who enters data & at what point in the deflection process?
- How will sites track when deflection occurs?
- Who referred the individual to deflection services?
- How does information move from the referrer to the data enterer?
